• **Present Academic Activities**

(a) Research in progress

"The Simultaneous Determination of Debt Structure and Managerial Compensation in a Signaling Game", Working paper, 2014.

"A New Model for Capital Adequacy Calculation Using an Aggregated Measurement Computed on a Network", with Arie Yaacobi, 2015.

My areas of research include corporate governance, capital structure and debt structure.

• **Volunteering and Contribution to the Community**

- Voluntary financial, economic and educational consultant as well as career planner for the ultra-Orthodox Jewish population.
- Mountain bike riding with blind people.

• **Additional Information**

Teaching has been always one of my major interests and commitments. I have received enthusiastic evaluations from students and hope to continue to merit their approval.

Over the last 10 years I have designed courses for ultra-Orthodox Jewish students that take into consideration their special academic needs. The goal of these courses is to help these students become part of the general Israeli society and participate in the labor market.
